

SURYA ELECTRONICS INC.

WHO WE ARE...

Surya Electronics Inc. is a one-stop source for all of your electronic assembly needs. In addition to surface mount and thru-hole capabilities, we offer value-added services such as fixture design and development, box-builds, full in-circuit and functional testing, flash programming, and turnkey, customer inventory maintenance, and labor-only services. We also offer quick-turn prototype services, medium and high-volume production capabilities, and offshore manufacturing for low-cost, high-volume opportunities.

WHAT WE DO...

- Stocking and Kanban programs to reduce lead times and inventory carrying costs
- Turn-Key, Customer Inventory Maintenance and Labor-Only Services to remain flexible to your procurement requirements
- Quick-turn Prototyping to help get your next project off the ground quickly
- High Volume Production to help reduce your costs
- Automated Programmable Conformal Coating protects your electronic assemblies from environmental elements
- Automated Optical Inspection (AOI) Machine improves our inspection process, assuring your assemblies are built with first-class workmanship
- Flash Programming for stand-alone or COB programming for all of your programmed IC needs
- Functional Testing to ensure your product is working before shipment
- Selective Wave Solder for improved throughput and quality
- Semi-Automated BGA Removal and replacement machine
- RoHS compliance for the European market
- Box-Build Assemblies so your product is ready to go out of the box
